MUTINA

LABORATORIO AVALLONE

[HTTP://LABORATORIOAVALLONE.COM/](http://LABORATORIOAVALLONE.COM/)

For more than 20 years the Italian segment has been leading in architecture. German Architects' training offers a unique experience.  
Avallone's design philosophy and his working methods have been recognized by the Italian architectural press. His expertise and his long experience extend to both the interior and the exterior, with his knowledge, particularly in glass and technical forms of stone or metal of all sizes and shapes.  
His work shows a great skill in his technical knowledge and in his architectural vision of the world's interior. Great and subtle aesthetic feelings. His eye captures the essence of the modern space, creating unique and original architectural solutions.  
His work shows a great skill in his technical knowledge and in his architectural vision of the world's interior. Great and subtle aesthetic feelings. His eye captures the essence of the modern space, creating unique and original architectural solutions.  
German Architects' training, with the help of the Italian architect and manager, German College, is a project of the German Architectural Association and the Italian Association of Architects, as well as an ongoing dialogue with the international community of architects and the world of design.
